This sheet is designed to serve you as a general guide. Keep in mind that not all courses will count within the given area, and not all prefixes are listed; even if the prefix is listed, you must consult with an Interdisciplinary Studies advisor to confirm that the specific course does count. Interdisciplinary Studies is a university-wide program that generates access to many courses, assuming all prerequisites are completed. However, departments may put a priority on registering their own majors and limit registration for non-majors.

**PLEASE CHECK ALL COURSE PREREQUISITES**

### Arts (BA)

Many Art area courses require prerequisites or permission to enroll. Some require auditions or portfolio reviews. (If you have already taken courses in this area, they can be counted towards the Interdisciplinary Studies degree.) Students who wish to complete this area should consult with an Interdisciplinary Studies advisor before embarking on it. We recommend completing a minor in the Art area.

### Commerce (BS)

Students choosing the Commerce area should declare one of the minors to assure completing the Commerce area. Please discuss this area with an advisor. If you have already taken courses in this area, they can be counted towards the Interdisciplinary Studies degree. The following prefix areas comprise the Commerce area. Many courses may not be open to general enrollment.

### Communications (BA)

Many Communication area courses require prerequisites or are limited to Communication majors and minors. (If you have already taken courses in this area, they can be counted towards the Interdisciplinary Studies degree.) Students intending to declare the Communications area should consult with an advisor. COM1000, SPC1608, and SPC1603 CANNOT be used in the area.

Note:
- Students must meet prerequisites or co-requirements for the courses.
- Students should proceed to the Communication advising office, NSC 143, for any registration problems/issues for communication classes only.

### Education (BS)

A few courses are generally open to Interdisciplinary Studies students. Upper level Education courses are typically not open to students other than those in Education or those who have passed the General Knowledge Test (GKT) and have a 2.5 GPA or above. We suggest doing an Education minor in order to take upper level Education courses. (If you have already taken courses in this area, they can be counted towards the Interdisciplinary Studies degree.) Students intending to pursue this area should consult with an advisor before starting.
